

MATH 370

Homework 0

Due Thursday January 30th, at class time.

Download the latex program so that your remaining writing can be written in latex.

The downloading procedure is on the web page.

You may use the current downloading instructions (Jan 25th) since I have just made minor changes (for instance the standard now is 2.9 instead of 2.8).

This time the homework is not checked. However, the next homework will require use of the latex system.
